Introduction

This is an exciting time to join UK-Med. We have expanded significantly over the last few years and have an ambitious strategy in place for growth.

The world is experiencing an unprecedented level of humanitarian need. Natural disasters, disease outbreaks and conflict can hit at any time. The people affected are often the poorest and most vulnerable and the health problems they experience post-disaster are long-lasting. We believe that they deserve the highest quality emergency medical aid. We seek to save lives, but also to build resilient health systems so that people can lead healthy lives in the future.

At UK-Med, we work together to:

- **Respond** rapidly to emergencies, delivering the expertise needed to support local health services and save people's lives.
- **Prepare** health staff through training and capacity building, enabling health services to be better prepared for emergencies.
- **Learn** and share learning worldwide through our academic partners, ensuring patients get the best care.

This is a pivotal time in our history to join UK-Med. At the end of February 2022, we received the first of many calls asking for help with the crisis in Ukraine. We now have programmes across Ukraine including surgical support, health clinics, and emergency preparedness training. More than 10,000 people have already received direct support or training from UK-Med as a result.

In June 2022, we were awarded EMT (Emergency Medical Team) status by the World Health Organization. A month later, we were formally appointed to provide EMT services for the UK government. As such we are at the front line of the Foreign, Commonwealth and Development Office's response to humanitarian crisis and can also respond to any crisis, anywhere in the world, under our own banner.

We are very excited about our plans and hope you will join us on this extraordinary journey.

David Wightwick

UK-Med Chief Executive Officer

Advert

Role:	HART Paramedic (Hazardous Area Response Team) - Ukraine
Remuneration:	£3300 to £3600 per month (dependent on experience)
Hours:	Work will be full-time. Immediate start required.
Duration:	6 weeks (longer availability may be an advantage)
Location:	Ukraine

This role is part of our Ukraine Programme and will be carried out within Ukraine

Applicants must have an existing right to enter Schengen Zone countries in order to transit to Ukraine e.g. citizenship/residence of a Schengen Zone country, or an ETIAS eligible country (<https://www.etiasvisa.com/etias-requirements>).

Are you an experienced HART Paramedic skilled in coordinating responses to medical emergencies?

UK-Med is a frontline medical aid charity. Born of the NHS, we've been working for over 30 years towards a world where everyone has the healthcare they need when crises or disasters hit.

We are seeking several new people to join our teams in Ukraine, to be available to deploy in HART Paramedic roles. You will be able to make yourself available to work in Ukraine immediately for 6 weeks (longer availability may be an advantage), supporting the health needs of internally displaced persons.

The HART Paramedic will work closely at a range of operational incidents including: Major Incidents, incidents of a CBRN nature, USAR (Urban Search and Rescue) incidents, incidents involving hazardous materials, structural collapse, confined space rescue, major transportation incidents, incidents requiring working at height, trench collapse and rescue and other tasks in accordance with the international standard procedures.

They will work closely with the clinical team lead, medical doctors and nurses to support mobile clinics/surgical units, acting as patient transfer focal point (if required) and advancing local capacity. If required as per deployment and context, paramedic role could be involved in patient care activities, although not the primary focus of the role.

The HART Paramedic will manage multiple streams of work, acting as a technical resource to support activities related to the context, ensuring that best guidance and standards are available for training and capacity under the Paramedic scope of practice. Along with the doctors and nurses they will play a central role in building the local capacity of any field staff (i.e., Ministry of Health or other NGOs), in areas related to the response, through training delivery.

You will be determined, high performing, compassionate and collaborative, as well as being committed to learning and supporting others to learn. Language skills will be an advantage.

How to apply

To apply, please complete the application questions and submit a **current CV and a supporting letter** (2 pages) as soon as possible. Please include a detailed explanation of your suitability for this post with **specific reference to the essential criteria** in the person specification.

Applications must be submitted through our [online jobs portal](#) no later than **Friday 23th of January 2023**

UK-Med is committed to safeguarding of our personnel and beneficiaries and has a zero-tolerance approach to sexual exploitation and abuse. We conduct thorough vetting before any appointment is confirmed.

UK-Med is committed to the principles of diversity, equality, and inclusion. We strive to provide an inclusive and supportive environment where employees feel respected and supported to be able to fulfil their potential.

About UK-Med

UK-Med (www.uk-med.org)

We train and deploy medical teams and specialists to save lives when epidemics, conflict and natural disasters hit. As disasters grow more frequent, severe, and complex there has never been a greater need to respond quickly and effectively. We believe in a world prepared to help.

It started in 1988 with a team of eight Manchester clinicians led by our founder Tony Redmond, when a huge earthquake ripped through Armenia. Teams continued to deploy throughout the 1990's and 2000s, and when Ebola struck West Africa in 2014 UK-Med stepped up. We recruited and trained the one hundred and fifty UK clinicians who worked alongside local medical teams, other NGOs and DFID to bring the outbreak under control.

UK-Med has deployed teams to a range of countries and crises including Cape Verde, China, Gaza, Haiti, Bosnia and Herzegovina, Indonesia, Jordan, Kosovo, Pakistan, the Philippines, Sierra Leone and Bangladesh. Our teams have undertaken a range of work on deployment including general medical care, trauma and surgical care, outbreak response and training of local healthcare staff.

UK-Med Vision, Mission and Values

Our Vision

A world where everyone has the healthcare they need when crises or disasters hit.

Our Mission

We save lives in emergencies.

When health services are overwhelmed, we get expert health staff to where they're needed fast.

We help communities prepare for future crises.

We Value

Excellence

We set high standards for ourselves and the organisation. We strive to be outstanding in everything we do.

Determination

We have a can-do attitude and thrive on problem solving. No matter what the challenge, we explore all options so if there's a way we'll find it. We don't give up easily.

Compassion

We care about people. The health and wellbeing of our patients and our people is central to everything we do.

Learning

We believe in knowledge-sharing and giving people the means to develop their capabilities. We value learning and continual growth.

Collaboration

Working in partnership with stakeholders, communities and colleagues is key to the success of our work.

We respect the skills, knowledge and experience of those we work with and take care to listen and adapt to changes in need.

Job Description

Job Title	HART Paramedic (Hazardous Area Response Team) - Ukraine
Reports to	Medical Team Lead (MTL), Medical Coordinator (MedCo)
Duration	Minimum of 6 weeks (longer availability preferred)
Hours	Full-time. Immediate start required.
Place of work	Ukraine
Purpose of role	
To provide assessment and training and/or capacity building to Ukraine Emergency Response (various settings/areas in the country, including within a hazardous environment (HART)), in order to provide the most appropriate support for conflict-affected populations. To provide paramedic/pre-hospital care, when require according to mission and response needs.	
Key responsibilities	
Expert advisory and Capacity building	
1	Support the professional development of other personnel through delivery of training, coaching, reviews or other mechanisms deemed needed for continuity of activities as per MedCo/team leader feedback, particularly in areas of relevant sub-specialty (e.g., HART, CBRN, etc)
2	Review and develop technical materials, tools, guidelines and documents (as per local needs), related to paramedic activities (e.g., standard protocols and procedures, training packages), as per deployment request adapting where appropriate.
3	Provide technical assistance to the MoH and other agencies/organisations, making sure that the provision of practical recommendations can be realistically implemented.
4	Participate in rapid appraisals of pre-hospital facilities and pathways if requested and report on the levels of implementation that may be required in response planning.
5	Build local capacity of the MoH field staff in areas related to the response activities.
6	Perform ad hoc duties, as assigned by the clinical team lead.
7	Participate in the preparation of any agreed team weekly report (Sitrep) and Medical monthly reporting. Contribute to donor proposals donor and internal reports as requested.
8	Prepare an end of deployment report with a summary of activities and recommendations for replacement position/upon medical lead request.
Clinical practice (if requested as per mission needs)	
9	Ensure the quality of care provided to patients, with best-practice clinical case management and the strict implementation of SOPs and treatment guidelines, if requested for clinical work.
10	Support definition of referral pathways maintaining up to date knowledge of contextual challenges, if requested by Medical Lead.

11	Analyse and report on existing available patient data and undertake good patient record management and support the data management process (patient confidentiality; adherence to the data protection laws within the country context, if involved in clinical case management).
12	Advocate for optimal care and outcomes for all patients, bearing in mind safeguarding protocols.
Safeguarding	
13	Comply with and uphold UK-Med safeguarding policies (including child protection, prevention of sexual exploitation and abuse, bullying and harassment) and all Codes of Conduct.
14	Report all possible breaches of policy or Codes of Conduct through the appropriate channels in a timely fashion.
General duties	
15	To ensure and promote Equality, Diversity and Inclusion (EDI) in line with UK-Med's EDI Policy.
16	Comply with all financial and procurement policies and procedures, including those relating to anti-bribery, anti-terrorism, and anti-slavery.
17	Support UK-Med's environmental policies and procedures, taking personal responsibility for contributing to reducing negative environmental impacts.
18	Undertake training and comply with vetting requirements (including CRB / police checks, referencing) appropriate to the role as specified by UK-Med.
19	Treat all people including colleagues, patients and other beneficiaries, volunteers, partner staff and the general public with respect and ensure their dignity in interactions with you and UK-Med.
20	Other tasks as might be required to ensure effective delivery of UK-Med / READY / projects and programmes of work.
21	Support in the collection of data both clinical and non-clinical and the reporting of this
